

MAHESH MORDE (Software Engineer)

Manchar, Pune, Maharashtra | [+91 9766228503](tel:+919766228503) | maheshmorde2511@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Web Developer experienced in building responsive, scalable web applications and improving user workflows through clean architecture and API-driven features.

EDUCATION

1. Java Full Stack Development Certification

IT Vedant Institute, Pune, Maharashtra

2022 - 2023

2. Bachelor of Engineering

Savitribai Phule Pune University.

2017 – 2022

Government College of Engineering and Research, Avasari Khurd

ACHIEVEMENTS

1. 2nd Runner Up [Microsoft GitHub Copilot Hackathon \(ALL INDIA RANK\)](#)

All India Rank 3 in "GitHub Copilot Hackathon" hosted by Microsoft Corporation on TechGig Code Gladiators platform

2. 1st Runner Up - IT Vedant Training Institute

All India Rank 2 in "Interbranch Competition" organized by IT Vedant Training Institute

WORK EXPERIENCE

1. Software Engineer

Platform Commons Foundation - Remote

04/2024 – Present

Projects – VMS(Vendor Management System), Markify (Agri products related web Application).

Clients – SBI Foundation, Lupin, Misfyt, Gandhi Fellowship, Make a Difference, Magasool

VMS (Vendor Management System) is a multi-tenant web platform used by social-impact organizations to manage vendors, users, and role-based operations across multiple clients. **Markify** is an agri-trading platform that enables farmers, FPOs, and warehouses to list, manage, and trade agricultural products for enterprise and NGO partners.

Responsibilities:

- Delivered responsive and scalable web applications for social-impact and enterprise clients.
- Developed profile management modules with update workflows and data validations.
- Implemented structured, modular architecture to improve code maintainability and performance.
- Integrated APIs to streamline data flow and system functionality.
- Built secure role-based access for multi-level user operations (user/admin/super-admin).
- Contributed to multi-tenant platforms for diverse client requirements.
- Improved usability by designing intuitive interfaces and consistent UI/UX patterns.
- Delivered customized solutions for clients like Misfyt, Gandhi Fellowship, SBI Foundation, and Lupin.
- Collaborated with cross-functional teams to ensure stable, high-quality feature delivery.

2. Associate Engineer

Amazon Development Centre India Pvt. Ltd, Remote

09/2021 - 01/2025 (3 yrs 5 months)

Projects: Vendor Order Management System (VOMS), Catalog Quality Improvement System (CQIS)

- VOMS is an internal Angular-based application designed to streamline large-scale vendor order placement and automated processing, ensuring seamless supply chain integration.

- CQIS & CPAF are data-driven frameworks used to enhance catalog accuracy and analyze global competitor pricing trends for strategic decision-making.

Responsibilities:

- Developed and maintained an internal Angular application used by procurement teams to manage, validate, and place high-volume vendor orders.
- Built modular UI components to handle complex data grids and order-processing workflows, improving internal operational efficiency by 30%.
- Integrated RESTful APIs to synchronize real-time catalog data between the internal ordering system and Amazon's global databases.
- Collaborated on the Competitor Pricing Analysis Framework (CPAF) by developing scripts to automate data extraction and validation, reducing manual audit time.
- Implemented role-based dashboards within internal tools to provide regional managers with visibility into catalog quality metrics and pricing discrepancies.
- Led technical audits and mentored junior team members on workflow automation and best practices for maintaining data integrity at scale.
- Coordinated with cross-functional engineering teams to resolve system bottlenecks and ensure the stability of catalog improvement tools.

CERTIFICATIONS

Angular Fundamentals – Certificate from IT Vedant Institute

Full Stack Development – Certificate from IT Vedant Institute

Crash Course on Python - Certificate from IBM on Coursera

Java Fundamentals – Certificate from IT Vedant Institute
